

## SECTION 01 11 00 - SUMMARY OF WORK

### PART 1 - GENERAL

#### 1.1 WORK COVERED BY CONTRACT DOCUMENTS

- A. The work includes the work as detailed on the plans. The Contractor shall furnish and install the water mains and associated appurtenances to include grassing, erosion control, pavement restoration, pressure testing, bacteriological testing, service conversions, service tubing, flowable fill, as-builts, etc. to complete all work in the plans.

#### 1.2 CONTRACTOR'S USE OF PREMISES

- A. Contractor shall limit his use of the premises for work and for storage, to allow for Owner occupancy and continuous operation of the entire water system.
- B. Contractor shall coordinate use of premises under direction of Owner.
- C. Contractor shall assume full responsibility for the protection and safekeeping of products under this contract, stored on the site.
- D. Contractor shall move any stored products, under Contractor's control, which interfere with operations of the Owner.

#### 1.3 OWNER OCCUPANCY

- A. Owner will occupy the premises during the entire period of construction for the conduct of his normal operations. Cooperate with Owner's Representative in all construction operations to minimize conflict, and to facilitate Owner usage.

#### 1.4 SUBSTITUTION OF EQUIPMENT AND MATERIALS

- A. In the Plans and Specifications, certain equipment and materials are identified by manufacturer in order to establish the quality expected by the Owner and Engineer. Equipment of equal or better quality may be substituted for those named at the Contractor's option with the stipulations described below. If this equipment is subsequently disapproved, the Contractor shall resubmit until the equipment he proposes is approved. The Engineer shall be the final authority on equality.
- B. This substitution paragraph does not apply to those pieces of equipment identified by a manufacturer followed by the words "to match existing" or "no substitution".
- C. Where equipment is identified by manufacturer, the first name appearing on the Plans is the name of the manufacturer around which the facility was designed. The second name is a manufacturer known to the Engineer to produce a similar piece of equipment of equal quality.

As described above, the Contractor may choose to install another manufacturer's equipment. If the Contractor chooses to install any piece of equipment other than the first named, any modifications or additional components required to provide a complete and satisfactory installation shall be provided by the Contractor at no additional expense to the Owner.

#### 1.5 EMERGENCY RESPONSE PLAN

- A. The Contractor shall develop and implement, prior to the start of work, an emergency response plan for handling spills and overflow of sewage or other materials that will damage the environment. This plan shall include how an immediate response will be achieved. Contractor shall provide the name and telephone number of a local representative that can respond to emergencies on a 24-hour per day basis.

#### 1.6 WORK HOURS

- A. THE Work shall be performed only during the hours of 7 a.m. to 7 p.m. Work may be performed outside this work window under the following conditions:
1. Contractor shall submit written request to Owner requesting different work hours and stating the reason for the request, including why it would be in the best interest of the Owner to approve the request.
  2. Owner gives written approval of the request.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)
